

Here's how we do it...

After setting up a convenient appointment our professionally trained technician will come to your home and apply the solution directly to the furniture, carpet or drapery. They will take the proper precautions to protect all other furniture and accessories to ensure there is no possibility of damage. After applying the solution the technician will lightly coax the formula using a special fabric brush into all parts of the fabric to ensure thorough application. The technician will inspect all of pieces to ensure that all parts have been protected. Your furniture will be returned to its original location before the technician leaves the home. Please allow 12-24 hours for the application to totally dry before using. All of our technicians travel with the proper tarps and cleaning supplies to ensure that your home is left in the same manner as when we arrived. Our protector will not damage any wood, glass or metal that the solution may come in contact with. We will also provide you with a gift for allowing us the opportunity to provide you with our services. Samples of our most popular cleaning products that we sell to commercial and residential homes throughout the United States. This sample comes in a re-usable basket and includes such things as leather cleaner and conditioner, ink and lipstick remover, glass cleaner and much more. If you would like to see our entire selection of Home care products please visit us at www.metroguardian.net.
